What did the instructor do to create an engaging and/or supportive learning environment for you?

Comments

Not sure. it was stressful

The instructor talked, a lot. She was nice and respectful and attended class regularly but the class wasn't engaging unless we were put in groups. There were numerous moments of awkward silences whether it was the professor thinking or waiting for the class to participate. I didn't think it was a good learning environment. Group projects and presentations were the only exciting thing about the course with this instructor.

made sure we all understood what to do and reinforced topics

Please note any additional feedback you have for the professor or course.
